

## **SBSC Weekly Highlights, August 7-12, 2006**

**Rattlesnakes Find Their Way Into Primetime:** The Montezuma Castle rattlesnake research conducted by SBSC wildlife biologist Erika Nowak and her stellar crew of field technicians will be featured on the Travel Channel Tuesday, Aug. 12 at 9:00 PM Eastern (6:00 PM Arizona). Nowak's research will be featured on a program called "Wild National Parks" which describes various ongoing research projects in our National Parks system.
